

Advanced Research & Methodology

Biostatistics Training 3 Month Intensive Research Training Program

Master clinical research with top global faculty, learn advanced methodologies, conduct research, and get published in high-impact journals.

Scan for More Information

www.mdresearch.us

Why Choose Our Course?

Learn advanced research methodologies and biostatistics from top physician-scientists in the world.

Conduct systematic reviews, meta-analyses, and network meta-analyses.

Publish in high-impact, PubMed-indexed journals worldwide.

Gain a Clinical Research Training Certificate to enhance academic and professional credentials.

www.mdresearch.us

Why learn from us?

We have a proven track record of success with many published articles in the world's premier journals.

Our students have published in prestigious journals such as:

- Journal of Complementary and Alternative Medicine.
- Journal of Integrative Medicine.
- BMC Complementary Medicine and Therapies.
- Complementary Therapies in Medicine.
- BMC Integrative Medicine.
- International Journal of Yoga.
- Frontiers in Medicine.

Hybrid Learning Model for Maximum Impact

- 1-hour recorded lecture + 1-hour live one-on-one faculty interaction per session.
- Direct mentorship and personalized guidance for each student.

From Learning to Publication

- Participants don't just learn- they are guided through the process of understanding the fundamentals of research.

Course Structure

FORMAT

- Online + Personalized Mentorship.

CERTIFICATION

- This 12-module course provides a step-by-step structured Approach to research Methodology, statistical Analysis, and scientific writing.

Scan for More Information

www.mdresearch.us

Modules Include:

Module 1: Foundations of Research

- Understanding research methods, methodology, and study design.
- Formulating hypotheses and research questions.
- Differences between qualitative and quantitative research.

Module 2: Research Designs & Clinical Trials

- Detailed exploration of experimental vs. observational study designs.
- Understanding randomized controlled trials (RCTs), cohort studies, case-control studies, and cross-sectional studies.
- Ethical considerations in research.

Module 3: Exploring Data & Concept of Probability

- Understanding types of data (categorical, continuous, ordinal).
- Data collection, organization, and presentation techniques.
- Probability theory, central limit theorem, and standard distribution curve.

Module 4: Biostatistics Fundamentals & Descriptive Analysis

- Measures of central tendency (mean, median, mode).
- Descriptive vs. inferential statistics.
- Introduction to statistical software (SPSS, R, Python, Statastics).

Module 5: Inferential Statistics & Advanced Analytics

- Hypothesis testing: p-values, confidence intervals.
- Survival analysis and Kaplan-Meier curves.
- Diagnostic statistics: Sensitivity, specificity, predictive values.

Module 6: Conducting a Systematic Review

- Step-by-step methodology for conducting a systematic review.
- Database searches (PubMed, Scopus, Cochrane) and screening techniques.
- PRISMA guidelines and risk-of-bias assessment.

Scan for More Information

www.mdresearch.us

Module 7: Introduction to Meta-Analysis

- Understanding effectsizesand heterogeneityassessment.
- Fixed-effect vs. random-effects models.
- Introduction to meta-analysis software.

Module 8: Conducting a Meta-Analysis

- Data extraction and coding.
- Pooling results and subgroup analysis.
- Publication bias and funnel plots.

Module 9: Statistical Interpretation of Meta-Analysis

- How to interpret forest plots and heterogeneity.
- Understanding confidence intervals and risk ratios.
- Common errors in meta-analysis interpretation.

Scan for More Information

www.mdresearch.us

Module 10: Network Meta-Analysis

- Introduction to indirect comparisons and mixed treatment comparisons.
- Application of network meta-analysis in clinical decision-making.

Module 11: Research Proposal Writing & Medical Writing

- Writing a compelling research proposal.
- Basics of grant writing and funding opportunities.

Module 12: Manuscript Preparation & Journal Submission

- Structuring a high-impact scientific manuscript.
- Journal selection, formatting, and submission process.
- Responding to reviewer comments effectively.

Network Metanalysis Comparing Yoga, Resistance Training and Aerobic Exercise on Heart Rate Variability in Healthy and Patients with Cardiovascular Disease

Aida Vanderpuye

University of Iowa, College of Public Health, USA

Amadu Bangura

Loudoun Medical Group, Virginia USA,

Abdifatah Mohamud

Saratov State Medical University, Russia,

Neha Bahri

Tianjin Medical University, Tianjin, China

Pragya Pandey

Senior Resident Doctor, Department of Community Medicine, North Eastern Indira Gandhi Regional Institute of Health and Medical Sciences, India.

Purvil Joshi

Medical College Baroda, Gujarat, India

Sakeena Ahmed

Kamineni Academy of Medical Sciences and Research Centre, Hyderabad, India.

Srikanth Gummadi

Dr.NTR University of Health Sciences, Vijayawada, Andhra Pradesh, India

Swetha Mora

Kurnool Medical College, Kurnool, India,

“Comparative Efficacy of Baroreflex Activation Therapy (BAT), Cardiac Contractility Modulation (CCM), and Cardiac Resynchronization Therapy (CRT) in HFrEF: A Systematic Review and Network Meta-analysis of Randomized Controlled Trials.”

Akhila N. Thota

GLOBAL INTEGRATIVE MEDICINE CONFERENCE 2026

ORGANIZED BY THE AMERICAN ACADEMY
FOR YOGA IN MEDICINE (AAYM)

May 1–3, 2026 

University of Memphis, Tennessee, USA 

CALL FOR ABSTRACTS & POSTER PRESENTATIONS

Are you a student, researcher, or clinician?

This is your chance to present your research at an international platform and get published in top peer-reviewed journals!

WHY YOU SHOULD APPLY:

- ✓ Guaranteed publication of all accepted abstracts in top-indexed journals
- ✓ Strengthen your CV and USMLE profile with an international publication
- ✓ Exclusive opportunity for MD Research students and young investigators
- ✓ Global networking with clinicians, researchers, and thought leaders
- ✓ Complimentary conference dinner

Submit Your Abstracts:

**Abstract Submission Opens:
December 1, 2025**

CONFERENCE OBJECTIVES

- Create a collaborative platform bringing together experts from India, the USA, and around the world to exchange knowledge in integrative healthcare.
- Release evidence-based clinical guidelines for the integration of Yoga, Ayurveda, and Naturopathy into modern medical practice.
- Present cutting-edge research and clinical evidence on the effectiveness of therapeutic interventions in managing chronic diseases such as diabetes, cardiovascular disorders, cancer, and stress-related conditions.
- Highlight Yoga's preventive and therapeutic role in promoting cardiovascular, endocrine, metabolic, and neurological health.
- Encourage interdisciplinary collaboration among clinicians, researchers, educators, and students to advance integrative medical science.
- Provide hands-on training and practical exposure for participants interested in clinical application and research in integrative medicine.

SUBMIT YOUR ABSTRACTS:

+1(901) 810-8515 / +1(901) 810-8527
